

Minutes of the Fourth Meeting

of the

Support Development Panel

2 July 1965  
0930 Hours, 7D34 Headquarters Building

25X1A

1. Those present were:

2. The Chairman opened the meeting by announcing the changes which are to be made shortly in the Support Career Service board and panel structure. The functions of the newly organized Support Career Board were outlined as were those of the Support Action Panel. The Chairman stated that Support Development Panel activities would be monitored by the Support Action Panel, but that for all practical purposes there are no changes in the Support Development Panel's activities.

3. He then reported on a recent meeting attended by the Chief, Career Training Program, the Executive Officer to the DD/S, the Panel Chairman, and its Executive Secretary, where it was agreed that until Career Trainees are formally assigned the Career Training Program would have complete responsibility for managing them. Upon formal assignment responsibility would shift to the appropriate Career Service mechanisms, including the Support Development Panel.

4. The Chairman then discussed the responsibilities of Panel members for monitoring the activities of those Trainees assigned to their components. It was agreed that until such time as the number of participants prevented continuation, each Panel member would monitor and report on those Trainees assigned to his particular component. It was also agreed that those assigned abroad would be monitored for the present by [redacted] of the Office of Medical Services.
